Go big with Liberty

Full-size your mobility interface easily and securely with the Liberty Key. Simply plug the Liberty Key into the USB port of any computer and its Bluetooth technology connects your BlackBerry email, calendar, contacts and internet connection to the full-size keyboard and screen. No data is ever stored to the remote PC or laptop unless the user puts it there.

Compose BlackBerry emails with a large screen and keyboard

- Send a message using Liberty, it gets sent from your BlackBerry
- Delete a message using Liberty, it gets deleted on your BlackBerry
- Mark a message read using Liberty, it gets marked read on your BlackBerry
- Update your contacts or calendar using Liberty, and they are updated on your BlackBerry

Browse the internet from your laptop without a LAN or Wi-Fi Connection

- Liberty gives you access to a "virtual hotspot"
- Request a web page in Internet Explorer using Liberty and your BlackBerry fetches it for you
- Eliminates the need for a costly air card

View and update attachments more easily on a large screen

- Open and edit an attachment in its native format
- Insert attachments into an email
